It's easy to connect to your vehicle and quickly access vital information. 5 Open 'Settings' app, and tap 'Wi-Fi' [instructions continue on reverse] Wi-Fi Wi-Fi OBD Fusion® is an app for iPhone, iPad, iPod Touch, and Android that allows you to read diagnostic data from your vehicle. I'm still learning how to use the other functions but this app has already paid for itself in troubleshooting a cat emissions problem in finding that the front O2 sensor on my Audi was reading 0.0 (bad). You can easily change adapter configurations, create your own PIDs, and edit your vehicle information. You can create you own dashboard layouts, selecting the PIDs that you want to see. OBD Fusion is one of the best selling apps on the market, and once you try it, we know you'll love it! Modern vehicles have dozens of computers that monitor everything from engine speed to how much fuel is in your gas tank. Monitors shows you whether your vehicle is ready for emissions testing. OBD Fusion supports enhanced diagnostics on Ford, Lincoln, Mercury, Mazda, Toyota, Lexus, Scion, Nissan, Infiniti, Dodge, RAM, Chrysler, Jeep, and some FIAT and Alfa Romeo vehicles. I also love that I can use this app with either my iPhone 5 or iPad Air. Maps displays your route on a live map.
